Subject: Dimock - Subcontracted lab data

Hi Suddha -

I know you are being pulled in several directions - but when you have a chance...

Would you please check on the status of the subcontracted lab data reports. I know Pace and TA both have a 21 day TAT and that the first reports started coming in last week. I am trying to get a better idea of where we are. Can we tell whether ALL data reports from the first week of sampling have been sent to EPA/ESAT?

I am also trying to get an update from our Ft Meade folks - but have not yet heard back.

Thanks - Kelley
